r.cedric.geronimo@gmail.com

Frontend Developer and Software Engineer with a strong foundation in modern frontend development and a passion for creating responsive, interactive, and user-centered web experiences. Skilled in React, TypeScript, Next.js, and Three.js, with experience in UI/UX design and wireframing. Also knowledgeable in backend development using Python and PHP, with an understanding of full-stack web technologies and software development principles. Passionate about continuous learning and building effective web applications.

WORK EXPERIENCE

Backend Developer Trainee
Pixel8 Web Solutions & Consultancy Inc
Legazpi City, Albay, Philippines

June 2024 - August 2024
Remote

- Developed and maintained RESTful APIs using PHP for backend services.
- Created and organized API documentation to improve usability and integration.
- Implemented and executed unit testing to ensure code reliability and performance.
- Collaborated with team members to debug issues and improve backend logic.

PROJECT EXPERIENCE

Spectron: 3D Interactive Web Portfolio | *React, Three.js, GSAP, Zustand, Blender*

- Developed an interactive 3D portfolio with a game-like user experience.
- Designed and optimized 3D assets in Blender for performance and visual quality.
- Implemented multi-scene navigation and structured UI for intuitive exploration.

Flow: Kanban Board Website | *HTML, CSS, JavaScript*

- Collaborated with team members to implement CRUD functionality for adding, updating, and deleting tasks.

EmoWarn: Fake News Classification with Embedded Emotion Warning System | *HTML, CSS, Python, Flask*

- Created own emotion classifier model by utilizing NLP.
- Integrated own fake news classifier by using a machine learning algorithm.

Vietnamese Restaurant Mock Website | *Next.js, React, TypeScript, Bootstrap*

- Developed a full stack restaurant website with reusable components for menus, specials, events, reviews, gallery, chefs, contact, and table reservations.
- Implemented interactive UI with Swiper, GLightbox, and dynamic content.

TECHNICAL SKILLS

Frontend Development: HTML, CSS, SASS, JavaScript, TypeScript, React, Next.js, Vite, Bootstrap, Zustand

3D & Interactive Web: Three.js (React Three Fiber, Drei), GSAP, Swiper, GLightbox

Backend Development: Python, PHP, C#, Laravel, JSON

Scientific & Data Computing: Python, NumPy, Pandas, SciPy, Matplotlib

Design & Creative Tools: Blender, Figma (Wireframing & UI Design)

Development Tools: Git, Git Bash, VS Code

EDUCATION

Bachelor of Science in Computer Science
De La Salle University - Dasmariñas

July 2025

- Specialized in Intelligent Systems

LANGUAGES

- English – Upper Intermediate / B2 (TOEIC Score: 820/990)
- Filipino – Native speaker.
